Tapestry Segmentation

Tapestry Segmentation represents the fourth generation of market segmentation systems that began 30 years ago. The 65-segment Tapestry Segmentation system classifies U.S. neighborhoods based on their socioeconomic and demographic composition. Each segment is identified by its two-digit Segment Code. Match the two-digit segment labels on the map to the list below. A longer description of each segment is available at:

Percent of Households by Tapestry Segment

Top Tapestry Segments:

Silver and Gold

Silver and Gold residents are the second oldest of the Community Tapestry segments and the wealthiest seniors, with a median age of 59.7 years; most are retired from professional occupations. Their affluence has allowed them to move to sunnier climates. More than 60 percent of the households are in the South (mainly in Florida); 25 percent reside in the West, primarily in California and Arizona. Neighborhoods are exclusive, with a median home value of \$369,808 and a high proportion of seasonal housing. Residents enjoy traveling, woodworking, playing cards, bird-watching, target shooting, saltwater fishing, and power boating. Golf is more a way of life than a mere leisure pursuit; they play golf, attend tournaments, watch golf on TV, and listen to golf programs on the radio. They are avid readers but also find the time to watch their favorite TV shows and a multitude of news programs.

Enterprising Professionals

This fast-growing market is home to young, educated, working professionals, with a median age of 32.4 years. Single or married, they prefer newer neighborhoods with townhomes or apartments. The median household income is \$71,018. This segment is ranked second of all the Community Tapestry markets for labor force participation, at 75 percent. Their lifestyle reflects their youth, mobility, and growing consumer clout. Residents rely on cell phones and PCs to stay in touch. They use the Internet to find their next job or home, track their investments, and shop. They own the latest electronic gadgets. Leisure activities include yoga, playing Frisbee and football, jogging, going to the movies, and attending horse races and basketball games. These residents also travel frequently, both domestically and overseas.

In Style

In Style residents live in affluent neighborhoods of metropolitan areas. More suburban than urban, they nevertheless embrace an urban lifestyle. Townhome ownership is more than double that of the national level; however, more than half of the households are traditional single-family homes. Labor force participation is high, and professional couples predominate. The median household income is \$72,326. Nearly one-third of these households include children. The median age is 40.3 years. In Style residents are computer savvy; they use the Internet daily to research information, track investments, or shop. They own a diverse investment portfolio, contribute to retirement savings plans, and hold long-term care and life insurance policies. They enjoy going to the beach, snorkeling, playing golf, casino gambling, and domestic travel.

Boomburbs

The newest additions to the suburbs, Boomburbs communities are home to younger families who live a busy, upscale lifestyle. The median age is 33.7 years. This market has the highest population growth at 5.3 percent annually more than four and one-half times the national figure. The median home value is \$334,829, and most households have two earners and two vehicles. This is the top market for households to own projection TVs, MP3 players, scanners, and laser printers as well as owning or leasing full-sized SUVs. It is the second-ranked market for owning flat-screen or plasma TVs, video game systems, and digital camcorders as well as owning or leasing minivans. Family vacations are a top priority. Popular vacation destinations are Disney World and Universal Studios, Florida. For exercise, residents play tennis and golf, ski, and jog.

Up and Coming Families

Up and Coming Families represents the second highest household growth market and, with a median age of 31.9 years, is the youngest of Community Tapestry's affluent family markets. The profile for these neighborhoods is young, affluent families with young children. Approximately half of the households are concentrated in the South, with another half in the West and Midwest. Neighborhoods are located in suburban outskirts of midsized metropolitan areas. The homes are newer, with a median value of \$213,306. Because family and home priorities dictate their consumer purchases, they frequently shop for baby and children's products and household furniture. Leisure activities include playing softball, going to the zoo, and visiting theme parks (generally SeaWorld or Disney World). Residents enjoy watching science fiction, comedy, and family-type movies on DVD.
